Rangeway

America’s Premier EV Charging Experience

THE PROBLEM

The EV Charging Experience is Broken

01

Unreliable Infrastructure

Only 71% of charging attempts succeed on first try

02

Poor Location Strategy

Most networks focus on highways, ignoring destination travel

03

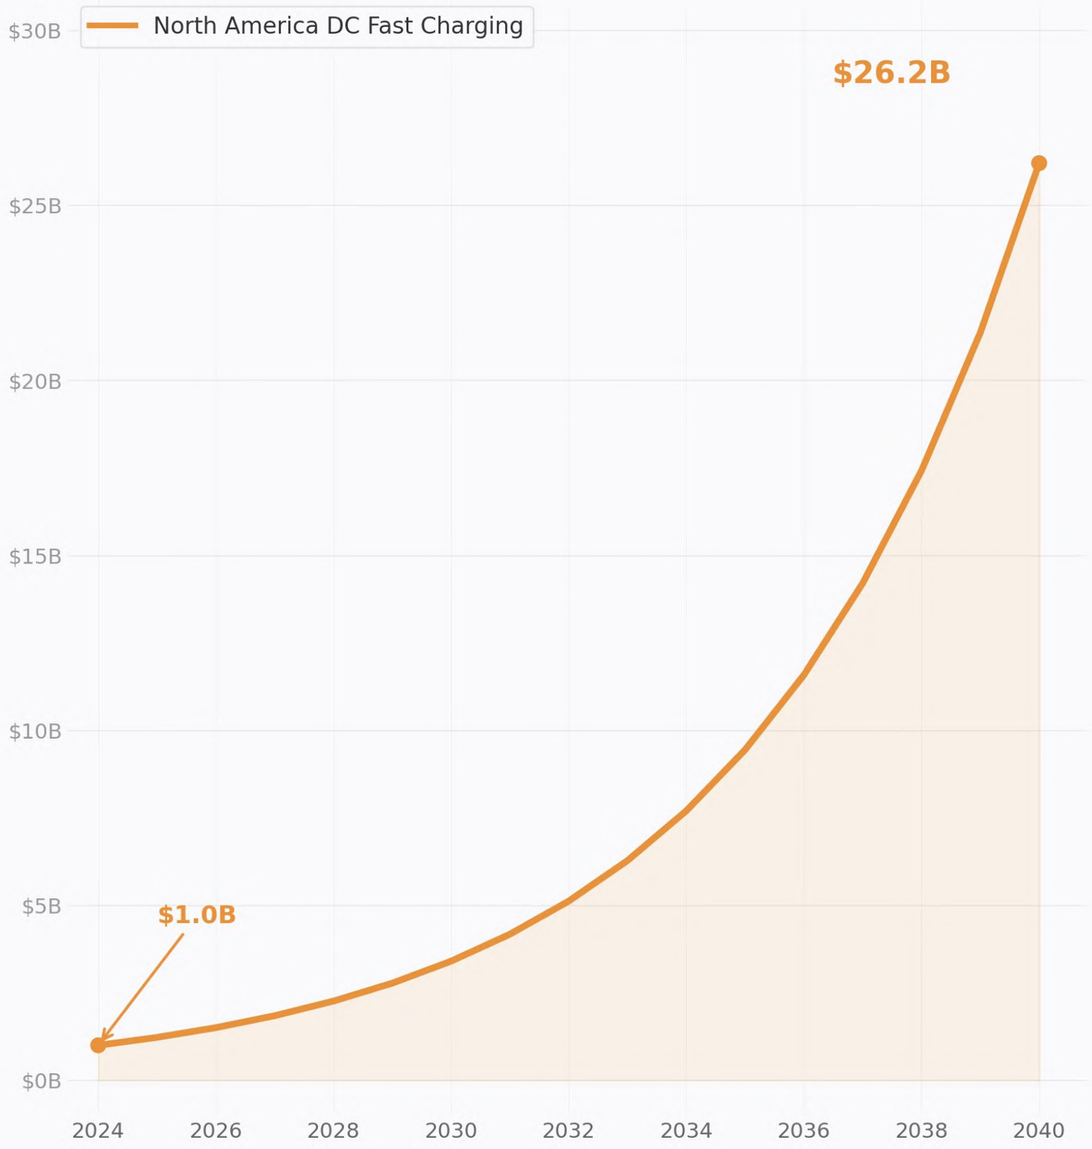
No Hospitality

Charging is transactional with no amenities or comfort

MARKET OPPORTUNITY

Massive Market, Perfect Timing

- **DC Fast Charging: $1.0B → $26.2B (2035)**
- **US Added 18,000 DC ports in 2025**
- **Premium segment emerging**



THE SOLUTION

Hospitality-First EV Charging

- **Summit**
  - Hospitality-first destination
  - Modular guest accommodations, clubhouse
- **Basecamp**
  - 2,500+ sq ft flagship staffed driver's lounge
  - 10-12 ports
- **Waystation**
  - 1,000-1,200 sq ft automated Lounge
  - 8-10 ports
- **Trailhead**
  - Compact and flexible with covered canopy
  - 2-4 ports (expandable to 10)

Cafés • Lounges • Dog parks

Playgrounds • Premium amenities

BUSINESS MODEL

Multiple Revenue Streams Across Four Formats

01 **Charging Revenue:** $0.50 base rate

02 **Overnight Accommodations (Summit):** Modular guest units generate nightly revenue at premium rates.

03 **Retail & Food Service:** Café and automated retail at all locations

04 **Advertising:** Digital screens generating partner revenue

05 **Carbon Credits & Incentives:** NEVI funding, carbon credit optimization

06 **Pathfinder Rewards:** Hospitality loyalty program (4 tiers, earned status)

COMPETITIVE ADVANTAGE

Why Rangeway Wins

Destination-Focused

Locations where people travel TO, not just through

Hospitality DNA

Premium experience modeled after airport lounges and luxury hotel lobbies

Four-Format Network

From Trailhead entry points to full Rangeway Summit destinations with overnight stays.

Energy Independence

Select sites operate 100% off-grid with solar, battery storage.

TRACTION

Active Pipeline, Real Momentum

Current Pipeline

- 1 site in Southern California
- 1 site in rural Nevada
- 1 site in West Texas
- First operational: Q4 2026 / Q1 2027

Momentum

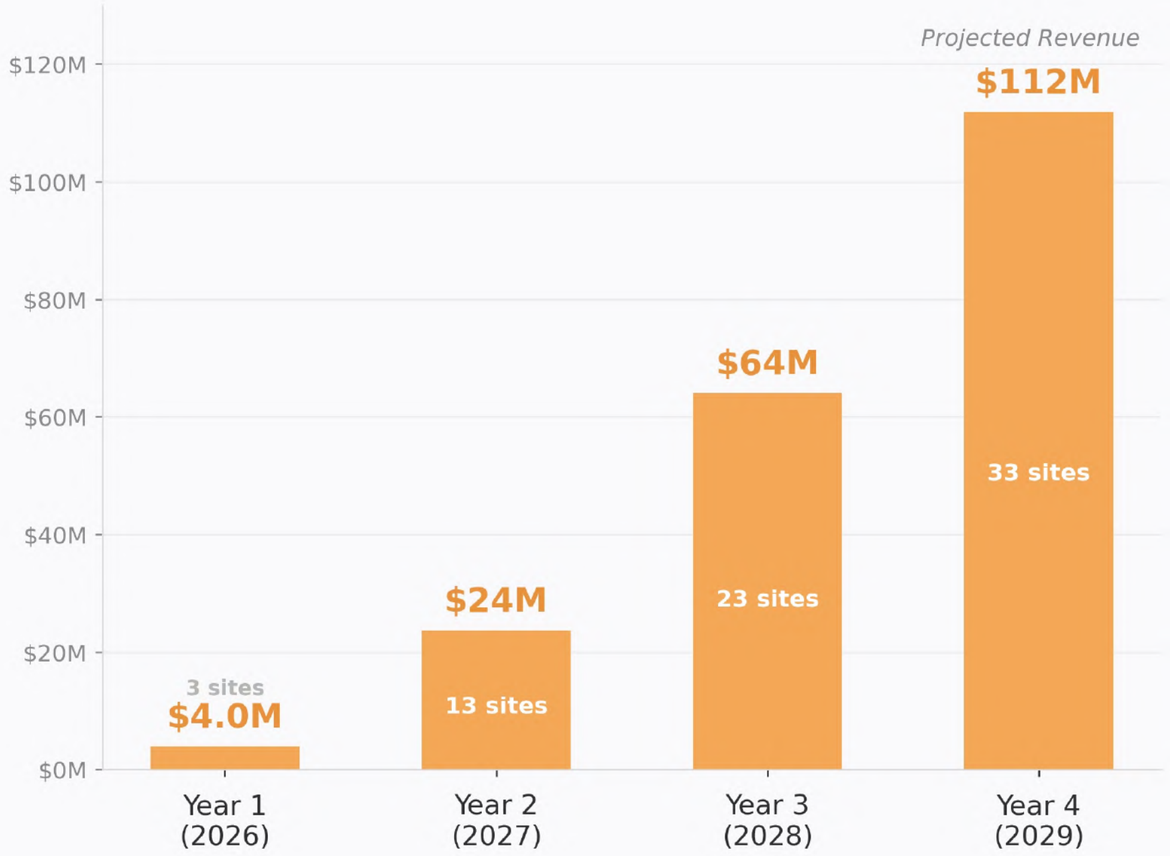
- Energy infrastructure partners in place
- Structural and building partner under LOI
- Named top emerging CPO for 2026
- Pepperdine Most Fundable Companies quarter-finalist

FINANCIAL PROJECTIONS

Path to Profitability

5-Year Projections

- Year 1: 3 sites | $4M revenue
- Year 2: 13 sites | $23.7M revenue
- Year 3: 20 sites | $64.1M revenue
- Year 4: 30 sites | $111.9M revenue

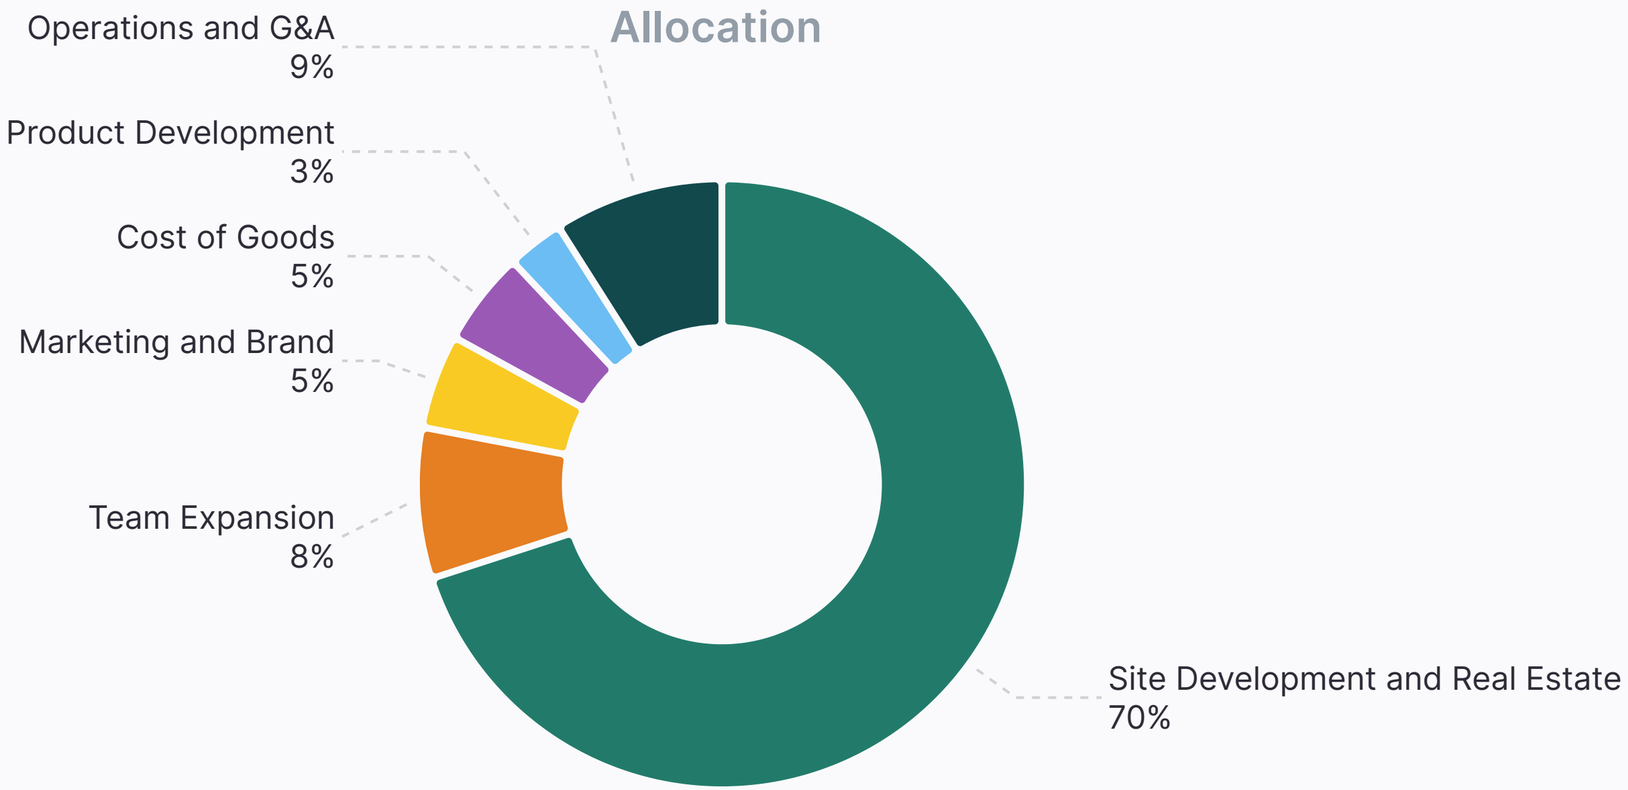


Unit Economics

- 6-8 chargers per site, 380 kW each
- $2.2M annualized charging revenue per site
- EBITDA margin: 31% Year 1, scaling to 36% by Year 5
- All assumptions modeled and available for review

Use of Funds

$60M Raise



Charging infrastructure at partnership sites is funded and owned by our energy infrastructure partner, significantly reducing Rangeway's hardware capital requirements.

Milestones

3-Year Roadmap

Q4 2026

Close raise, site control secured on first 3-5 locations

Mid 2027

First sites generating revenue

Late 2027

Network expanding, additional sites under development

2028

First Summit welcoming overnight guests

2029

Multi-state network operational

Where every charge becomes part of your journey

Let's Build the Future of EV Travel Together
